PROBLEM TO SOLVE

4 QUALITY EDUCATION

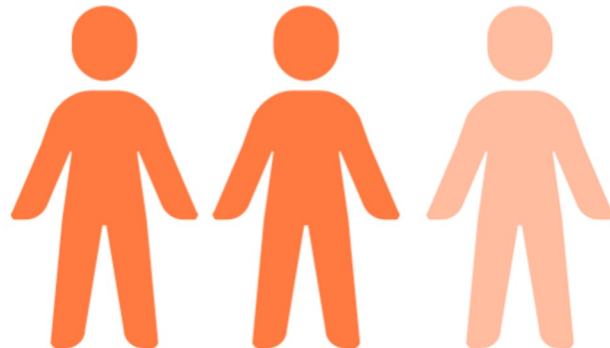

Equitable and inclusive access to education and lifelong learning is key to transform lives and societies and achieving the *sustainable development agenda*.

The **SDG4** can only be reached through **scalable and flexible learning solutions**

Quality must be ensured, but many countries still do not have comprehensive qualification frameworks or accreditation systems that cover all types of provisions

Lack of awareness: **Advocacy** is needed!

What does inclusive access mean?

One third
of the world's
population still
does not have
access to the
internet.
