13 PhD positions available in the context of Project SURFICE

The team of project SURFICE is recruiting 13 PhD positions as Early Stage Researchers (ESRs) for the Marie Skłodowska-Curie Innovative Training Network “Smart surface design for efficient ice protection and control” (SURFICE).
https://www.surfice-itn.eu/

The network will consider 13 PhDs working on a variety of complementary topics in one of the universities and industries situated in 8 European countries (Italy, Germany, France, the UK, the Netherland, Belgium, Austria, Switzerland).

The project is coordinated by the University of Milano-Bicocca, Italy.

Applications are collected until March 31st following the application process described at: https://www.surfice-itn.eu/phd-positions/general-conditions-and-requirements/
