DIPSI Workshop 2022

Droplet Impact Phenomena
& Spray Investigations

X-ray visualization of a liquid droplet growing from a single pore

Bergamo, 1st July 2022

DRIPIT
Summer school closure meeting

30th June 2022

Workshop goals

This is the fourteenth edition of the workshop on droplet impact phenomena and spray investigations organised by the University of Bergamo. It represents an important opportunity to share the recent knowledge on droplets and sprays in a variety of research fields and industrial applications.

Who should attend?

Engineers, scientists and R&D managers who work in:

- design, production and control of injection and spraying systems;
- aircraft, automobile, fire-control,
- agricultural, food-processing industries;
- scientists working on multi-phase flows, heat and mass transfer.

DROPIT Summer School 2022

On **30th June 2022**, in the same location of the DIPSI Workshop, the closure meeting of the DROPIT Summer School 2022 will take place. The event is part of project Droplet Interaction Technologies (GRK 2160, DROPIT), led by Universität Stuttgart, in partnership with Università degli Studi di Bergamo and Università degli Studi di Trento.
