Summer School 2023

– on Sustainable Waste Management & Circular Economy –

From 26th June – 5th July 2023 at Addis Ababa University, Ethiopia

Objectives

Discover an exciting opportunity at Addis Ababa University this summer. Join us for an exciting program led by experienced waste management experts from Ethiopia, Ghana, and Germany. Our lecturers will equip you with the knowledge and skills necessary to promote sustainable waste management practices, as we explore the challenges and opportunities in the field. Addressing sustainable resource and waste management methods that prioritize the needs of the population while also contributing to reducing greenhouse gas emissions. By the end of the program, you will have a thorough understanding of circular economy, sustainable resource and waste management, recycling processes, complemented by practical lessons and excursions.

Learning Outcomes

1. Exploring the Circular Economy: Possibilities of Sustainable Resource Management
2. Beyond Waste: Uncovering Innovative Solutions for Waste Prevention
3. Developing a Holistic Understanding of Waste Management Systems and Technologies
4. Proposing Innovative Approaches to strengthen the Circular Economy

Scholarships

As a participant, you will receive a scholarship that includes travel, accommodation, and daily expenses, as well as a participation and scholarship certificate. Come and be part of a community that seeks to make a tangible difference in the world by crafting solutions to some of the most pressing challenges of our time. Don't miss this opportunity to broaden your horizons and gain valuable experience while contributing to a better world.

Organizers

This summer school is organized as a part of the **SUCCESS 24** project – Sustainable Cities and Circular Economy in Sub-Saharan Africa 2024.

This international research project aims to strengthen sustainable development in the Sub-Saharan region using a circular economy approach to develop sustainable and resilient waste management methods.

– The summer school is funded by DAAD.

Schedule

The Summer School will run for ten days from **June 26th until July 5th 2023** and will have two major work streams.

Format

The school will consist of lectures, group works, excursions and intercultural exchanges.

Website

<https://www.project.uni-stuttgart.de/success24>
